How delighted I am to be Patron of the Civic Trust. The work of the Trust is truly amazing and with their vision and a little bit of cash input Dundee could be restored to a similar standard to the marvellous reclamation that has been happening in Edinburgh over the last 30 years.

When I was a student I was so horrified about what certain of the City Fathers had done to Dundee and found it so painful that I used to bypass the city when going to visit my sister in Craigie. I did think at one time there was a plot to make Dundee the biggest car park in Europe, especially with the demolition of really truly remarkable buildings which are all part of Dundee's history. For example how dearly I would love to see the restoration of the Royal Arch or for that matter General Monk's HQ which disappeared into the Overgate Development.

But now Dundee is truly the city of many facets, a city of survival as well as discovery. There are fantastic projects on the horizon, with the marvellous Contemporary Arts Centre and the reclamation by the Tayside Building Preservation Trust of Gardyne's Land, together with the building of a new Biocentre, the proposals for a new Water Front Development bringing the City closer to the river and the exciting Close's Project revealing a whole hidden aspect of Dundee, Dundee has the perfect opportunity to combine the most modern architecture with buildings dating back to the 14th Century.

It's a very exciting time to become Patron and I am truly impressed by my city's incredible ability to re-invent itself on a continuous basis.

Brian Cox, Patron
